In Edmonton on the 29th of November, three dozen attendees participated in a unique business opportunities workshop based on industrial symbiosis. **On the day, over 149 resources were discussed and nearly 400 potential matches were captured!**

This workshop provided a basis for attendees to interact, and resulted in the identification of a series of innovative partnerships between businesses. The Canadian National Industrial Symbiosis Program team wishes to thank all participants, speakers, and volunteers who were present at the event.

Was it any good?

Thanks to everyone who filled in a feedback form to let us know your opinion of the event.

You scored us...

Workshop organisation 4.5/5

Meeting your expectations 4.6/5
